SUMMARY

I am a full stack software engineer with strong analytical and problem solving skills, with experience in product development, process improvement, and project management. I am driven by a growth mindset to always continue learning and challenge myself to make a positive impact through my career and deliver high quality products to users.

SKILLS

Languages:	HTML5, CSS3, JavaScript, Python
Libraries & Frameworks:	jQuery, Node.js, Mongoose.js, Express.js, React.js, Django, Bootstrap, Materialize
Databases:	MongoDB, PostgreSQL, GraphQL
Version Control/Deployment:	Git, Github, Netlify, Heroku
Methodologies:	OOP, Functional, RESTful Routing, AJAX, MVC
Operating System:	MacOS, Windows
Soft Skills:	Excellent written and verbal communication skills. Strong analytical skills for data driven decision making. Excellent interpersonal and leadership skills to build key working relationships and facilitate collaboration.

PROJECTS

-
- ALITR** - github.com/cocampo0915/ALITR
- A full stack web application that functions as a sort of to-do list, similar to a travel bucket list but with a focus on food destinations.
 - Employs the following technologies: HTML, CSS, JavaScript, Node.js, Express.js, Mongoose, MongoDB, EJS
- LEVELUP Apparel** - github.com/cocampo0915/LEVELUP-Apparel---frontend
- A full stack web application that functions as a sort of to-do list, similar to a travel bucket list but with a focus on food destinations.
 - Employs the following technologies: HTML, CSS, JavaScript, Node.js, Express.js, Mongoose, MongoDB, EJS
- Gastronaut** - github.com/cocampo0915/Gastronaut
- A full stack web application that functions as a sort of to-do list, similar to a travel bucket list but with a focus on food destinations.
 - Employs the following technologies: HTML, CSS, JavaScript, Node.js, Express.js, Mongoose, MongoDB, EJS
- Hangry App** - github.com/cocampo0915/Hangry-App
- A web application that helps users decide on a meal to prepare based on a random generator, or through a criteria.
 - Built with front-end technologies: HTML, CSS, JavaScript, jQuery, AJAX
 - Responsive design implemented to allow application to be viewed on tablet or mobile devices, using CSS Flexbox.

EXPERIENCE

Quality Control Support Analyst IV || March 2020 - August 2021

Grifols Diagnostics || San Diego, CA

- Performed routine testing utilizing various assays and techniques for the final release of products, consisting of various IVD assay kits testing for viruses, including SARS-CoV-2, HIV, HCV, HBV, Dengue, Parvo, Babesia.
- Managed QC Stability program and drove process improvements alongside management to improve workflow.

Quality Control Analyst || July 2019 - March 2020

Takeda Pharmaceutical || Glendale, CA

- Conducted routine biological, chemical, and physical analyses on production material, following controlled test procedures, and critical to timely release of production schedule.
- Mastered and performed advanced assays requiring precise analytical skills and understanding of biological and chemical principles.

Research Associate || July 2016 - Jun 2019

Hycor Biomedical || Garden Grove, CA

- Led internal research studies on a late-stage development medical device for the publication of white papers.
- Frequently generated reports and presentations for communication to executive leadership on progress of research studies.
- Acted as a subject matter expert for SDS-PAGE/Western Blot. Developed and implemented protocols for use by other lab personnel. Acted as lead trainer for this technique.

EDUCATION

Software Engineering Immersive Flex, Remote | *General Assembly*

Microbiology, Immunology, and Molecular Genetics, B.S. | *University of California, Los Angeles*
